SUMMARY

Computer Science and Engineering student with hands-on ISP and enterprise network support experience in IP provisioning, VLANs, network monitoring, Wi-Fi/VPN troubleshooting, and Tier-1 technical support. Experienced with MikroTik, Cisco, VSOL OLT, structured cabling, and bandwidth management, with practical knowledge of TCP/IP, subnetting, DNS, and DHCP. Eager to grow my networking skills while contributing to the organization's goals.

Experience

Network Support Engineer (Intern)

Infolink Limited

07/2026 - Present

- Provided technical support and network troubleshooting for ISP customers, isolating faults across ONU, router, and core network layers using MikroTik (Winbox) and VSOL OLT platforms.
- Managed IP provisioning, VLAN configuration, and bandwidth queues, and conducted on-site installations and structured cabling for customer connectivity.
- Monitored network availability, latency, and bandwidth utilization across customer connections, proactively identifying and escalating performance issues.

PROJECTS

Multi-Router Campus Network Design with VLANs, VLSM & RIP Routing

- Designed a multi-building network using VLANs, VLSM, and RIP routing.
- Implemented inter-VLAN routing (router-on-a-stick) with 802.1Q trunking and Dynamic Routing.

JFP TeleManage – Asterisk-Based IP-PBX System

- Developed an Asterisk-based IP-PBX system for departmental communication at Jamuna Future Park.
- Configured SIP extensions, IVR, call queues, dialplan routing, and SIP trunking.

Cyber Security Home Lab

- Built a virtualized cybersecurity home lab in VirtualBox using Kali Linux, Metasploitable 2 and 3, Ubuntu Server, and Windows environments to simulate real-world testing scenarios.
- Performed traffic monitoring and vulnerability scanning using Wireshark, Nmap, and OpenVAS.

EDUCATION

Bachelor of Computer Science and Engineering

International University of Business Agriculture and Technology

09/2022 - 09/2026

CGPA

3.79 / 4.0

Higher Secondary School Certificate

Uttara Model College

2019 - 2021

GPA

4.92 / 5.0

Secondary School Certificate

Shahid Academic School

2017 - 2019

GPA

4.57 / 5.0

KEY ACHIEVEMENTS

ISP Network Support

Gained practical experience with MikroTik, VSOL OLT, IP provisioning, VLANs, bandwidth management, and network troubleshooting.

Network Security & Analysis

Performed practical traffic analysis and network scanning using Wireshark and Nmap.

Training & COURSES

Advanced Cybersecurity Training

Business Automation Ltd.

CCNA Training (Running)

AIUB

Linux 100: Fundamentals

TCM Security

SKILLS

Networking

TCP/IP, IPv4 Addressing, Subnetting, VLAN, 802.1Q, Routing, Network and Wifi Troubleshooting, VPN Configuration, IP Provisioning, Bandwidth Management

ISP & Network Equipment

MikroTik RouterOS / WinBox, Cisco IOS & Managed Switches (Packet Tracer), Wireless Access Points, VSOL OLT, ONU Configuration, Structured Cabling

Tools

Wireshark, Nmap, Nagios

Systems

Linux (Kali & Ubuntu), Windows

Security

Basic Vulnerability Assessment, Traffic Analysis
